

Town of Wolcott Mailbox Policy

The responsibility to maintain, repair or replace mailboxes lies with the property owner. If a properly installed and maintained mailbox (as determined by the Road Foreman and in consideration of USPS requirements) is physically struck by the Town's plow truck (not damaged by the weight or force of snow exiting the end of the plow), a generic USPS Post Office approved mailbox will be provided at no cost to the property owner. A report must be made to the Town Office or Highway Department within 2 working days of the incident.

Adopted 12/30/2020
